Digital Marketing Content

Introducing your customers to MailGuard eDM content

As part of our [CyberReady Partner Portal](#), we've created this resource and marketing content to help you kickstart the conversation about email security with your clients and leads.

Copy and paste the content directly from this document for your eDM and landing page marketing purposes.

Subject line

Introducing MailGuard — Our new cloud cybersecurity partner

Message body

Dear {Customer Name},

We want to support your business productivity and growth by connecting you with the best security products on the market.

That's why we've just partnered with [MailGuard](#) *{link to our website www.mailguard.com.au}*, a leading email security provider. Stackable with any email platform, MailGuard's provisioning takes a matter of minutes and gives you immediate protection from malicious email.

First to stop zero day cyberattacks

MailGuard is 2-48 hours ahead of the market stopping fast breaking email threats. It delivers advanced protection with no additional impact on your resourcing. As a cloud solution there are no installs, updates or patches required to maintain the highest level of security.

MailGuard is a certified Gold Microsoft Partner hosted on Azure, and the only cybersecurity vendor invited to join Microsoft's pilot for the global Cloud Services Partner Platform.

Want to know more? [Contact us](#) now *{link to your key sales contact}* for more information about experiencing an inbox free of spam and malicious content.
